

# Some Questions I want to ask.

\*If there are questions u don't want to answer that is fine ☺

\*u can write how much u want. Don't hold back ☺

\* maybe don't write a 10 page essay :o

Name:

1) Firstly, how are u? how has your time been here? Are u enjoying it?  
I am good, the time spend here, in KASK has been really fun and fulfilling . I am really enjoying it a lot! I have time for rest, artistic work and pleasure.

2) Have u met allot of people? How do you meet them? (insta, school, going out?..)  
Yes, I meet quite a lot of people, mostly in the school, on lessons, in the ateliers, but also on exhibitions and parties.

3) Are the people here different? Nice/social/grumpy/pain in the ass?  
I would say that people here are more social and nice, always happy to help and have faun with you.

4) What do you think of the Belgian weather? ☺  
For me it is not a problem, I don't mind the rain, wind and clouds. Maybe it would be better to have more sun.

5) Have u eaten a Belgian waffle? The gentse neuzekes (candy)? Frietjes?..  
I have eaten waffles, with I enjoyed, but fries I eat the most!

6) Is it hard adapting to being here?  
The first two weeks were hard, but then I got used to new space, and now I feel really at home here.

7) What do you think of kask/conservatory? Is the communication good?  
With all of the Erasmus matters I had no problems, everybody is helpful and responds really fast on emails and stuff.

8) Does the school help you with finding a stay here when u are accepted in the exchange program?  
Yes, they offered me a stay in the student house.

9) Is the way of working/teaching here different form your school? Do you get opportunities to learn new things?  
Yes, absolutely. Here I am more free, I can do whatever I want, and that helps me with my artistic growth. Teachers are nice and sometimes helpful, but from some of them you don't get a lot of feedback.

10)Do you have questions u wanna ask me? Or something else u want to say about the program. Do you want something to happen from school itself for exchange students?  
I don't have nothing specific in my mind, I guess everything here works very well.

11)What is your favorite animal? (^.\_.^)  
I don't have a favourite animal, but in this period I really like whales 🐳🐳
